

# AC 101: Basics for Beginners - Supply List

If you have any questions, email me @ dancingravenstudio@gmail.com

Brushes:

- #6 Ivory Flat, and # 2 Ivory Round – Rosemary & Co
- #2 Princeton Dakota Flat (really stiff brush)
- #4 Flat Robert Simmons - Sapphire
- #1 Liner Robert Simmons - Sapphire

Masonite Boards – Primed and ready to go 5x7's and 6x6 inch size  
(you can use canvas or even canvas paper)

Kneaded eraser

Metal Palette Knife -

Water Spritzer Bottle – *ensure that there has been so chemicals in this container.*

(I also use Distilled Water in the bottles.)

## **PAINT:**

Golden Heavy Body Acrylics (these paints are really good and a small tube will last)

- 2 oz tubes of: Cadmium Yellow Light  
Ultramarine Blue  
Burnt Umber

Liquitex Heavy Body Acrylic Paint –

- 2 oz tubes of: Ivory Black  
Quinacridone Blue Violet  
Alizarin Crimson Hue Permanent
- 8 oz tube Titanium White.

*If you can't get Ivory Black in Liquitex then you can get Bone Black from Golden Heavy Body Acrylics*

Grey Matters Palette Paper 9x12 inches

Mechanical pencil .7 or .9 lead

big yogurt or Ice cream container for water

Large food Rubbermaid container (to make an inexpensive stay wet palette to keep paint fresh and will hold a 9x12 palette paper comfortably)

Kitchen Paper Towel (whole roll) – Blue shop towels are great because there is less lint

Plastic clear ruler - 15 cm (6 inches)

Old clothes, apron or a Lab Coat to cover (get as long as one as you can get because acrylic does not come out of fabric - <http://uniform.ca/61-lab-coats>)

Fine Mist spritzer bottle (slows the acrylic from drying out) - Make sure it hasn't had anything in it or the chemicals will transfer into the water.

Smart phone (optional but is really helpful in a number of ways)

\*\* If you chose inexpensive paint your colours mixing will be different than with artist grade paint, and YES it is super helpful to START with good paint! You won't be a frustrated with your results.
